SHERMAN & HYDE'S COLUMN

CENTENNIAL AWARD!!

GRAND TRIUMPH

—FOR—

WEBER PIANOS!!

FIRST PREMIUM

OVER ALL

AMERICAN AND FOREIGN

MANUFACTURERS

Copy of Telegram received by Sherman & Hyde:

New York, Sept. 29, 1876.—Received the highest award for sympathy, pure and rich tone, combined with greatest power, as shown in the three styles—Grand, Square and Upright Pianos—which show intelligence and activity in their construction, a pleasant and easy touch, which at the same time answers promptly to its requirements, together with excellence of workmanship.

A. WEBER.

These famous Pianos are for sale by
SHERMAN & HYDE,
Corner Kearny and Sutter Streets, San Francisco.

Never before in the history of piano manufacture has an instrument risen so rapidly in popular favor.

Its intrinsic merit and decided superiority over all others has caused ever musical and artist of note to adopt and recommend it.

Q. "I shall take every opportunity to recommend and praise your instruments."

Miss Kellough says, "Your Pianos are my choice for the concert room and my own house."

Loren says, "Your uprights are extraordinary instruments, and deserve their great popularity."

Pathways, "I have used the Piano of every celebrated maker, but give you the preference over all."

Strains says, "Your Piano astonished me. I have never seen any Piano which equal yours."

Wells says, "Madame Paropa called your Pianos the finest in the United States. I fully endorse that opinion. They have no rival."

—OR—

CHEMICAL OLIVE SOAP

Warranted to wash in hard or

Soft Water.

AFTER USING ONCE, NO PERSON WILL BE

WITHOUT IT.

It has been proven beyond a doubt, by the

most scientific men of this day, that disease is

often propagated by the use of soap in which

the use of animal fat and oils, and thus extracted

from animal bodies of a malignant disease are

employed. Hence the necessity of every man,

while exercising caution in purchasing his Soap

to use nothing in the Manufacture of one Soap

but the

Pure Tallow and Vegetable Oils.

Obtained from animals slaughtered when in a

healthy condition. We practice the motto,

"THE BEST IS THE CHEAPEST."

We also Manufacture the Celebrated

CHLORINE WASHING POWDER

As a disinfectant has no superior. It bleaches

your clothes White and Clean.

By square dealing and close attention to busi-

Men are every day being discharged from the mines and mills in and around Virginia City.

Rev. S. P. KELLY, State Superintendent of Instruction, is quite sick with an attack of neuralgia.

An assessment of one \$1 per share is levied by the Savage Mining Co., delinquent on the 28th of December next.

The next United States Senate will be composed of 42 Republicans and 84 Democrats, with two contested seats.

The grasshoppers are hatching out numerously in Texas. There is fear that they will not survive the rigors of winter.

SMALL-POX has been peculiarly fatal in San Francisco during the late epidemic. Out of 1,000 cases reported, there have been 760 deaths. The epidemic is now dying out.

Yesterday Peter Jarkin, who killed Daniel Corcoran in Virginia some time ago, was resentence to be hanged. The 10th of January is the day fixed for the hanging.

A woman named Annie Lyons was killed in Virginia on Sunday last by the cars running over her. Kate Shay, who was walking with her at the time, barely escaped by stooping down beside the platform.

The country's extremity is George Francis Train's opportunity, and he modestly comes forward to relieve it from its difficulty in making a selection between Hayes and Tilden by offering to assume the weighty duties of the Presidential office himself.

Pattee is the luckiest politician in California. He has been Assemblyman, Senator, Treasurer, Lieutenant Governor, Governor, and now he has been elected to Congress by a majority of one vote in a District which is largely Democratic.

TENNESSEE now numbers an armor-clad fleet of 15 vessels, mounting 127 Armstrong guns, and 31,600 horsepower, without counting two more vessels that are nearly finished, two building, and a vast number of other fighting crafts, monitors, etc.

AN estimate of the popular majorities in the Presidential contest gives Hayes in the Northern States 230,057, and Tilden in the same States, 50,000. Hayes in the Southern States received 6,000, and Tilden's majority in the same States was 461,300. Governor Tilden's popular majority, therefore, was mainly made up in the Southern States.

THE CONTEST IS OUTGOING.—It seems probable that the Democrats will make a contest before issuing a certificate to Watts, the Republican elector. Governor Grover, it is feared, will take the broad ground that Watts was ineligible at the time he was elected, and will issue a certificate to his Democratic competitor having the highest vote.

A bill to fix the salaries of State officers of Colorado has been introduced in the legislature of that State. It fixes the salary of the Governor at \$3,000; Lieutenant Governor, \$2,000; Secretary of State, \$2,000; Auditor, Treasurer and Superintendent of Public Instruction, \$1,200; Attorney General, \$1,000; Supreme Court Judges, \$3,600; District Judges, \$3,000. The Denver News thinks the salaries small for the Judge's and Superintendent of Public Instruction.

With reference to color blindness, or the lack of power to distinguish colors, it is stated that very few of the persons so affected are conscious of the defect in their vision. Many railway accidents are caused by the color blindness of employees, and the Swedish Railway Direction has recently ordered an examination to be made by oculists of all the men in its employ, so as to guard against the danger. Prof. Holmgren, who has just examined the employees of the Upsala Gofte railway, found that out of 268 persons, 18 were color blind, and so utterly unfitted for the railway service.

NOMINATOR OF DUTY.

It is in order for some of the admirers and friends of Mr. Wm. Sharon to inform his constituents if his private business is of such a pressing nature that he will be compelled to neglect the official business which he has been entrusted by them. If the answer to this shall be in the affirmative, and we candidly confess that we do not believe the interrogatory can be answered in any other manner, then it would be but a simple act of justice for Mr. Sharon to resign the proud position he holds, though it did cost him such an immense sum of money. There can be no good excuse on political grounds for a declination to accede to this moderate request of the people. A Republican Legislature will shortly assemble in Carson, and the character of the men composing it confirms our opinion that a Republican could be selected, who has the time to spare to represent Nevada at Washington, and the ability and learning to represent as far better than ever Sharon could hope to. We call to mind Hon. Thos. P. Hawley, Hon. B. C. Whitman, Hon. R. S. Mesick, Hon. J. E. Lewis, and if we should stop to think, we could easily enumerate a dozen more men of bright minds, who would probably consider it a great honor to be a Senator of the United States, and would repay the State that conferred it upon them, with an unceasing devotion to its best interests. So far as we are able to judge Mr. Sharon is, out of his element as a Senator; he shows no disposition to become better acquainted with the intricacies of political life at the National Capital, and by his absence from the seat of Government he leaves the battle-born and silver State partially unprotected. If he persists in remaining away from his post of duty we trust that his common sense will come to the rescue, convince him of the error he is committing, and induce him to make reparation by residing in San Francisco simply as a private citizen, and not as a Senator from Nevada.

SHARONIAN COMMENT.

The Reno Journal has the boldness to demand Sharon's resignation. It thinks that he is a failure as a Senator, and that he ought to allow the legislature to appoint a man who would be in Washington occasionally at least during the session of Congress.—*Union County Times*.

SECONDLY.—The Reno Journal thinks Senator Sharon could not better subserve his own and the interests of his constituents than by resigning his position. As the Nevada Legislature is largely Republican on joint ballot there is no danger that a Democrat would be elected to the United States Senate. We concur with the Journal.—*Elko Post*.

The Reno, Nevada State Journal calls upon U. S. Senator Sharon of San Francisco to resign his position as United States Senator for the State of Nevada. It is not at all probable that Mr. Sharon will gratify the Journal. True, he has not been much of a Senator as yet, but he has an abundance of time in which to become one.—*Sacramento Bee*.

The Reno Journal is still clamoring for Senator Sharon's resignation. How can Sharon refuse to obey the mandates of the great, influential Journal.—*Carson Tribune*.

A FINE PROSE.—Alec Stewart, brother of the Professor of that name, informs the Carson Tribune that 90 feet of a ledge of good ore has been struck in the Emerald mine (formerly the Lowers) adjoining the Bessette mine, Eagle Valley. The mine in question lies north of the ridge which divides Ormsby from Washoe county and is really a continuation of the lode discovered in the Bessette mine. Ore from the Emerald will be crushed in the Bessette Company's mill this week and the clean-up will tell if there is a bonanza in Eagle Valley or not.

SENATOR JONES.—The Elko Post bears that Senator Jones will visit the State of Nevada in about two weeks, as his duties at the Capitol will not require his presence during the early part of December. During the recess of Congress he has been ardently and continually at work as the chairman of the Silver Commission sitting in New York City. The people of Nevada are grateful to Senator Jones for having labored faithfully for their interests, and he will be heartily welcomed.

GOSSIP.—District Attorney Lindsay expresses a firm determination to put a stop to prize fighting in Storey county.

It was President Lincoln who first made Thanksgiving Day a National institution.

LATEST ELECTION NEWS.

FLORIDA'S VOTE BEING COUNTED.

SOUTH CAROLINA'S MUDDLE.

SAN FRANCISCO POLITICS.

ETC., ETC., ETC.

Columbia, Nov. 27.—On an application for writs of habeas corpus, the Board of State Canvassers were brought this morning into the United States Circuit Court, Judges Bond and Bryan presiding. The board were in custody of the Sheriff, who, through counsel, asked for time to make a return to the application for writs. The Court signified that the time would be put into the custody of the Court pending the return. The application is based on the ground that the board were discharging their duty of appointing Presidential electors when the Supreme Court of the State interfered. On a subsequent motion of counsel, time was granted until Wednesday at 10 o'clock to make a return, pending which the board was placed in the charge of a United States Marshal. The members are now at large, but accompanied by a Deputy Marshal.

It is understood that troops will be posted at the State House to-morrow, when the Legislature meets to organize.

Chicago.—A Washington special says a dispatch from Columbia says the Democrats are perfectly wild with excitement over the President's order to the Secretary of War to sustain Chamberlain. The occasion of this order was the knowledge that the rifle clubs intended to assemble in Columbia to-morrow and over-awe the State authorities, take possession of the legislature, and declare Hampton legally elected Governor. The action of the President will stop these reformers, composing the rifle clubs, are anxious for a fight.

Montgomery.—The Alabama Legislature will ballot for a Senator to-morrow. The Democratic caucus has taken twenty-eight ineffectual ballots, and will meet again to-night. The prominent candidates are Governor Houston, General Morgan, Hon. J. L. Hughes and Colonel Herndon. The Democratic caucus has in attendance eighteen out of one hundred and thirty Senators and Representatives.

Chicago.—A dispatch from Tallahassee says the Canvassing Board met to-day and began their labors. The vote will be very close, but the Republicans are confident of success.

New York.—A Herald's Washington special says: The opinion was expressed by several members of the Cabinet yesterday at its session that the Supreme Court of South Carolina has no jurisdiction in the premises and has no right to direct the imprisonment of the canvassers for contempt. Members of the Cabinet and other leading Republican politicians say to-day that the Court has exceeded its authority, and that its Judges may possibly find themselves in trouble should they not abide by the settlement supposed to be under way.

New York.—A World's Columbia special says: There seems to be no way out of the deadlock but an appeal to the Federal power, and the general impression is that the troops will be called upon. A feverish state of apprehension pervades the community, and fears of bloodshed are freely expressed.

Tilden's official majority in Georgia is 35,085.

San Francisco.—Congressman Wigington arrived here from Merced last evening and left this morning for Sacramento to witness the canvass of the votes of his District. He is reported to have said that he is satisfied that mistakes had occurred in some of the precincts, a correction of which would give him a majority.

It seems improbable that any testimony will be taken concerning city election frauds this week. It is considered doubtful if any evidence of value can be obtained aside from the testimony of the clerks in the offices of the Assessor and County Clerk.

New York.—J. Milton Turner, colored, U. S. Minister to Liberia, having been refused accommodation at the Astor House, has commenced action against that hotel, under the civil rights bill, for \$5,000.

Rents in Virginia City are being rapidly reduced.

MINING NOTES.

It is expected that the river mills at the Ophir mine will soon be again in operation, as the ore from the 1,500 and 1,000 foot levels is improving in quality and quantity.

The Halo & Norcross and Savage pumps are being run to their full capacity, and the new pumping machinery at the Gould & Curry mine is being put in position as rapidly as possible.

The average daily ore product of the principal Washoe mines during the past week has been as follows: Belcher, 250 tons; California, 450 tons; Consolidated Virginia, 400 tons; Chollar-Potosi, 100 tons; and Justice, 200 tons.

The connection between the Consolidated Imperial and Yellow Jacket mines on the 2,135 foot level, made last Saturday, gives excellent ventilation to both mines, which has been much needed for a long time, and drifting will now be prosecuted more vigorously.

COINS NO LONGER COINED.—The \$1 and \$3 gold coins are no longer made, and work on them will probably never be resumed. The former is altogether too small to be of practical use, and the latter is too near the size of the Quarter Eagle to be desirable. Senator Jones' Double Dime coin, which was going to abolish the "bit" system of the Pacific Coast, is also found to be a failure. Several hundred thousand of these were made, but there has been no call for them, and they are still in the Government vaults.

An Important Survey.

During the past summer the Wheeler Expedition has been engaged in a survey of great importance to the people of California and Nevada. With Carson City as a rendezvous a series of observations have been made of the whole country around Gold Hill, Virginia City and Silver City, extending to the boundary line of California. The field work, according to the statement of the officers engaged, is accurate and complete. The planimetric has been frequently tested and checked by observation at different points, so that every mountain, hill, flume, mine, cañon and mill can be located with the utmost nicety. Every person familiar with mining matters during the past few years, knows of the many contentions which have existed concerning the extent of mining claims. In some cases the disputes have led to the sacrifice of life, as in the case of the Justice mine three years ago. Justice which they have been the cause of almost endless litigation. In those days when even an inch of ground may be worth a considerable sum of money, it is highly desirable that the exact boundaries of a mining claim should be defined. The field work has all been executed, and the notes are ready for transfer to paper. An appropriation by Congress next winter will, however, be necessary for this purpose, and it is to be hoped that the importance of the vast mining interests on the Comstock will receive due consideration, before it is determined to allow the field notes to remain idle.—*S. F. Bulletin*.

TURKEYS.—John Hay has two dozen very fine young turkeys which he will dispose of at reasonable terms to any who may want to have a turkey dinner next Thursday. You can either buy them oraffle for them. First come first served. Call at the Ohio House, Virginia street.

GRAND PROMENADE.—Patrick Kellier, proprietor of the Saddle Rock, has bought out the restaurant known as the Woodcock, and will christen it the "Branch Saddle Rock." He will close for a few days for the purpose of painting and thoroughly refitting it, and will open on Sunday next with a grand turkey and chicken dinner. The restaurant will be first-class in all its appointments, and a hungry man can get anything he may want, from a plate of soup up to an Eastern raw.

SEMI-AN OUT.—Mrs. L. M. Chase is determined to close out, regardless of price, her large and varied assortment of dry goods and miscellaneous articles. Now is the time to buy cheap goods.

CAUTION.

NEVADA QUICKSILVER MINING CO.—The public are hereby cautioned against negotiating the following certificates of stock in the above named company, portion of the same having been sold or accounted of as shown in the following list of certificates: No. 3, dated September 20, 1876.

By order of the Board of Trustees, CHAS. T. BENDER, Sec'y. Office at Banking House of D. A. Dwyer & Co., Commercial Row, Reno, Nevada, Reno, November 28, 1876.
